Work Experience

UI/UX Designer / Visual Designer – Freelance

2023 – present

- Designed UI/UX for web services and digital products: user flows, screen structure, UI and interactive prototypes.
- Developed visual concepts, key visuals and graphic solutions for digital projects.
- Created motion and 3D graphics for interfaces, presentations and digital communications.
- Used AI tools to speed up the search and generation of visual concepts and draft materials.
- Prepared final design materials and visual assets for digital projects.

UX/UI Designer / Middle 3D Designer – [Chipsa Design](#)

2019 – 2023

- Contributed to 50+ digital projects, including UI/UX, visual design, 3D and motion.
- Worked with 10+ commercial clients, including A101, AAG, Artlife Biotech and the “Dvizhenie” forum.
- Contributed to 10+ UI/UX projects for websites and digital products, including Paper Planes and Sever Boat.
- Designed user flows, page structure, UI and interactive states for websites and digital products.
- For the A101 project, built a 3D interactive map of a residential district showing the complex and surrounding infrastructure – schools, kindergartens, medical facilities and routes.
- Developed key visuals and 3D visual solutions for major digital projects, including the “Dvizhenie” forum, Artlife Biotech and AAG.
- Created responsive solutions for different resolutions and devices, and worked out UI components, visual states and interactive elements.
- Worked with developers to prepare designs for implementation within technical constraints.
- Used Figma, Cinema 4D, After Effects and other tools depending on the task.

UX/UI Designer – Freelance

2018 – 2019

- Designed interfaces for websites and digital products.
- Worked out page structure, user flows and visual hierarchy.
- Created UI components and design mockups.
- Adapted designs to project goals and the requirements of different platforms.
- Contributed to visual solutions for commercial projects.

Education

- 2019 — Siberian School of Design, “Web Design” program

Skills

- UI/UX Design
- User Flows & User Scenarios
- Wireframing & Prototyping
- Responsive Design
- Interaction Design
- UI Components
- Visual Design
- Motion Design
- 3D Design
- AI-assisted Design

Tools

- Cinema 4D · Redshift · Substance 3D · After Effects · Midjourney · Three.js · AI tools
