

Nikita Isaev — CV

September 27, 2026

About

I design UX/UI interfaces, mobile apps, and website design, plus 3D content: still frames, identity design, motion graphics. Lately I've been using AI tools to speed up rough production and bring the result to final quality at every stage.

Russia, Krasnoyarsk, working remotely.

Experience

Period	Role
2023 — present	AI Designer / 3D Generalist (Freelance)
2021 — 2023	Middle 3D Designer & UX/UI, Chipsa Design
2018 — 2021	UX/UI Designer

Education

Siberian School of Design — 2019

Skills

- AI images and video
- 3D modeling
- Interface design / Interface animation
- Simulations / node-based generation

Software & Tools

Midjourney, Cinema 4D, Houdini, Redshift, Substance 3D, After Effects, Figma

Services

- **UX/UI Design** — interface and user experience design + three.js and 3D interactives
- **3D Hard Surface Design & Visualization** — renders of any complexity, product visualization, 3D mockups, and key visuals for brands
- **AI Design** — fast concept art, references, and accelerated 3D production using AI tools
